

SHOE SPECIFICATIONS

A detailed breakdown of the shoe's design and features

SAFETY FOOTWEAR

PARIS / 51003

Sex: Female

Sizes: 3-8

Available in black

Upper

- This fashionable all leather upper is cut from 2.0 – 2.2mm chrome tanned, Full Grain bovine sides. The leather has been tanned for a softer, more comfortable feel as well as having good hard wearing characteristics.
- The elastic gussets allow for greater comfort and ease of putting the shoe on.
- The BOVA Comfort vamp lining is made from a special needled Hi-Tech Fibre blend which has excellent perspiration absorbency resulting in a low heat buildup and a more comfortable shoe for the wearer. This material has been treated with “ULTRAFRESH” which imparts

additional hygienic and anti-bacterial properties to the lining.

- The quarter lining is from an industrial quality “cambrelle” type nonwoven material with good abrasion resistance.
- The collar padding is from a newly developed soft closed cell foam for superior comfort and support.

Insole and Sock

- The insole is from a specially developed anti-static non-woven material which has exceptional directional stability, durability and comfort.
- The “Energiser” footbed sock is made from a specially needed 100% pure new wool blend that has great perspiration absorbency and gives extra comfort to the wearer who is on his feet all day long due to the low buildup of heat inside the shoe. This material has been specially treated with “ULTRAFRESH”, which imparts hygienic and anti- bacterial characteristics to the material.
- A special shank reinforcement is moulded into the midsole to give additional support under the arch of the foot.

The PU Sole

- The sole is from foamed polyester polyurethane, for lightness, comfort and flexibility. The sole has a shore hardness of 0.64 – 065.
- The polyurethane sole is an excellent insulator against the cold concrete floors and has a heat resistance of between 100 and 110C.

Toe Caps

- The steel toe cap is imported from Europe and complies with the S.A.B.S. specification to withstand an impact load of 200 joules. This toe cap has a wide fitting but is also fashionable and feminine.

The "PARIS" shoe, has been tested to comply with SANS/ISO 20345 specification and carries the SANS/ISO 20345 Certified Mark.

Beier Safety Footwear has a registered quality management system and is an ISO 9001 rated factory.
